**PART V
FREQUENTLY ASKED QUESTIONS**

Q. Who needs to get a Confirmation of CAGR D Fee Payment Notice?

A. Developers, builders, landowners or others seeking a Public Report for a subdivision that is (1) enrolled as a Member Land of the CAGR D or (2) located within a CAGR D Member Service Area.

Q. Why do I need a Confirmation of CAGR D Fee Payment Notice?

A. In accordance with ARS § 45-576.C., ADRE will not approve a Public Report for your subdivision without this notice.

Q. How do I know what fees are owed to CAGR D for my subdivision?

A. For subdivisions that were enrolled as Member Lands of the CAGR D before January 1, 2004, only an Activation Fee must be paid to CAGR D. For subdivisions that were enrolled as Member Lands on or after January 1, 2004, both a Replenishment Reserve Fee and an Activation Fee are due. For subdivisions that are located within a CAGR D Member Service Area, only an Activation Fee must be paid to CAGR D. [Click here for the Final Rate Schedule.](#)

Q. How do I know when my subdivision was enrolled as a Member Land of the CAGR D?

A. A Declaration of Covenants, Conditions and Restrictions ("Declaration") was executed by the original owner of the land on which the subdivision will be built. Your subdivision's enrollment date is the date on which this Declaration was recorded into the records of the County Recorder.

Q. What are the fees based on?

A. The Activation Fees are on a per lot basis.

Replenishment Reserve fees are based on the size of the subdivision and the annual projected volume of replenishment that the CAGR D will be required to perform for the subdivision at build-out (as projected by ADWR).

Q. How are the fees calculated?

A. The Replenishment Reserve fee is calculated by multiplying 2 (2 years up-front) by the Volume (V) by the Replenishment Reserve Charge (RRC) as follows:

Replenishment Reserve Fee = 2 x V x RRC where:

V = The annual volume of replenishment required by CAGR D as projected by the AZ Department of Water Resources

RRC = The current [Replenishment Reserve Charge](#) as established by the CAWCD Board of Directors

The Activation Fee is calculated on a per lot basis

Activation Fee = HU x PUA F where:

HU = The number of housing units in the subdivision

PUAF = The current per-unit [Activation Fee](#) as established by the CAWCD Board of Directors

Q. What will CAGR D do with the fees?

- A. CAGR D will use the Replenishment Reserve Fees to purchase and store water to establish a reserve of long-term storage credits as required by Arizona Revised Statutes, Section 48-3772.E. and 48-3774.01.A. CAGR D will use the Activation Fees to purchase water rights and build infrastructure necessary to meet its replenishment obligations as required under Arizona Revised Statutes, Section 48-3772.A.

Q. Will there be a processing fee?

- A. Yes there is a processing fee for the two-part payment option.
