

AZ Water Scavenger Hunt

Use the map below and the directions to locate key water points in Arizona!

- Label all the directions – North, West, East, and South.
- Find the Grand Canyon. Circle it in brown and label.
- Find the Mogollon Rim Mountains and circle in brown. It is a ridge of mountains located halfway between Sedona and Show Low.
- Find the Colorado River, trace it in blue.
- Find the Verde River, trace it in green.
- Find the Salt River, trace it in yellow.
- Trace all the tributaries that you find in blue.
- Find the major cities: Tucson, Prescott, Yuma, and Flagstaff. Draw a box around them in black.
- Find Arizona's capitol- Phoenix. Put a yellow star on it.
- Find Lake Mead (west of the Colorado River, near the Arizona border). Draw an orange triangle around it.
- Find Hoover Dam. Draw an arrow pointing to it in black.
- Find Roosevelt Dam (along the Salt River). Draw an arrow pointing to it in black.
- Find the Central Arizona Project Canal (It runs from the Colorado River to south of Tucson). Trace it in red.

Central Arizona Project is a 336 mile long system of aqueducts, pumping plants, and pipelines which carries Colorado River water into central and southern Arizona.
