

# FACT SHEET know your water

## WHAT IS CENTRAL ARIZONA PROJECT?

Central Arizona Project (CAP) is a 336-mile system that brings water to central and southern Arizona. CAP supplies water to 80% of the state's population, and is the single largest provider of water to Native American Tribes in the Colorado River system.

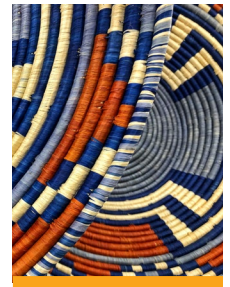

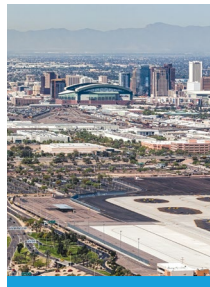

## THE CAP SYSTEM IS AN ENGINEERING MARVEL

Construction of the \$4 billion CAP system began in 1973 and was completed 20 years later. The result is an engineering marvel.

## CAP WATER IS KEY TO OUR ECONOMY

Water is a precious natural resource. The water CAP provides is key to Arizona's economy and quality of life.

## CAP WATER IS IMPORTANT TO COMMUNITIES AND INDUSTRIES

CAP delivers water to approximately 60 municipal, industrial and tribal water users in Maricopa, Pinal and Pima counties.
