REVISED STIPULATION RE STAY OF LITIGATION, RESOLUTION OF ISSUES DURING STAY, AND JUDGMENT

1 BUREAU OF RECLAMATION; GALE A. NORTON, Secretary of the Interior; BENNETT 2 RALEY, Assistant Secretary of the Interior; CONDITIONS JOHN W. KEYS, Commissioner of 3 Reclamation; ROBERT JOHNSON, Regional Director, Lower Colorado Region, 4 United States Bureau of Reclamation. 5 Defendants. UNITED STATES OF AMERICA 6 7 Counterclaimant, 8 V. 9 CENTRAL ARIZONA WATER CONSERVATION DISTRICT, a municipal 10 corporation of the State of Arizona. 11 Counterdefendant. 12 13 Plaintiff and Counter Defendant Central Arizona Water Conservation District 14 ("CAWCD"), and Defendants and Counterclaimants the United States of America, et al. 15 ("United States") (hereinafter, collectively referred to as "Parties") previously entered into a Stipulation Regarding a Stay of Litigation, Resolution of Issues During the Stay and for Ultimate 16 Judgment Upon the Satisfaction of Conditions. That document was filed on May 9, 2000 and 17 18 will hereinafter be referred to as the "May 9, 2000 Stipulation." Paragraph 8(f) of the May 9, 2000 Stipulation provided that if various conditions 19 subsequent were not or could not be satisfied by May 9, 2003, then either the May 9, 2000 20 21 Stipulation would need to be extended, with or without modification, or it would be terminated and 22 litigation would resume. The Parties determined that all such conditions cannot be satisfied before May 9, 2003, and met and conferred, pursuant to Paragraph 8(f) of the May 9, 2000 23 Stipulation, and reached agreement on a Revised Stipulation Regarding a Stay of Litigation, 24 25 Resolution of Issues During the Stay and for Ultimate Judgment Upon the Satisfaction of Conditions, hereinafter referred to as "Revised Stipulation." Accordingly, the Parties agree that 26 27 judgment may be entered in this action in accordance with the following Revised Stipulation:

> 1. This Court has jurisdiction over the Parties and the subject matter of this action.

ULTIMATE JUDGMENT UPON THE SATISFACTION OF

- 2. The First Claim for Relief in CAWCD's Complaint for Declaratory and Injunctive Relief ("Complaint") filed on or about July 10, 1995, in this action and the First Claim for Relief in the United States First Amended Counterclaim ("Counterclaim") filed on or about August 19, 1998, shall be resolved as follows:
- entitled "Contract between the United States and the Central Arizona Water Conservation District for Delivery of Water and Repayment of Costs of the Central Arizona Project" dated December 1, 1988 ("1988 Contract"), CAWCD's repayment obligation for the Water Supply System and the New Waddell and Modified Roosevelt Dams ("Regulatory Storage") Stages of the Central Arizona Project ("CAP") shall be fixed at \$1,646,462,500, with annual payments to be made by CAWCD in conformance with the annual payment schedule set forth as Exhibit "A" hereto which is incorporated by reference herein as if set forth in full. The repayment obligation and Exhibit "A" are premised on a total allocation of 667,724 acre feet of Project Water for use by Indian tribes in Arizona.
- (b) To the extent Congress provides appropriations therefor, the United States will bear the financial obligation of completing all remaining features of the Water Supply System and Regulatory Storage Stages of the CAP, including any and all environmental mitigation construction work necessary to comply with Biological Opinion Number 2-21-90-F-119, dated April 15, 1994, dealing with the Transportation and Delivery of Central Arizona Project Water, to the Gila River Basin (Hassayampa, Agua Fria, Salt, Verde, San Pedro, Middle and Upper Gila Rivers, and Associated Tributaries) in Arizona and New Mexico ("Gila River Biological Opinion"); and Biological Opinion Number 2-21-91-F-706, dated May 1999 (Draft), dealing with the Impacts of the Central Arizona Project (CAP) to Gila Topminnow in the Santa Cruz River Basin through Introduction and Spread of Nonnative Aquatic Species ("Santa Cruz Biological Opinion"), without any expenses being charged CAWCD except for those accounted for in Exhibit "A." Remaining features of the Water Supply System and Regulatory Storage Stages of the CAP to be completed shall be limited to those features identified in Exhibit "B" hereto which is incorporated by reference as if set forth in full. Exhibit "B" further identifies

SOMACH, SIMMONS & DUNN
A Professional Corporation

which remaining features of the Water Supply and Regulatory Storage Stages of the CAP will be completed by the United States and which will be completed, pursuant to subparagraph 6(c)(iii) of this Revised Stipulation, by CAWCD. In the event that additional authorizations or appropriations are needed to capitalize or complete the items identified in Exhibit "B," then CAWCD agrees to support these authorizations and appropriations including any the Secretary may request for the capitalization and payment of environmental mitigation work identified in Exhibit "B." The \$1,646,462,500 repayment obligation will not be adjusted regardless of the outcome of litigation dealing with either the Gila River Biological Opinion or the Santa Cruz Biological Opinion.

- (c) In addition to the provisions of Article 9.3(e) of the 1988 Contract, CAWCD and the United States shall consult prior to the construction of any CAP feature, facility or stage, of which costs may be allocable to CAWCD, other than the Water Supply System Stage and the Regulatory Storage Stage, and, except as provided in Exhibit "B" hereto, about such construction, relevant costs and any cost allocation associated with that construction.
- (d) Nothing herein is intended to preclude CAWCD from supporting or the Secretary from seeking authorizations and appropriations to cover all or part of the funds that may be necessary to pay for major replacements of CAP features or facilities.
- (e) CAWCD agrees to support authorizations and appropriations the Secretary may request for CAP Indian distribution systems authorized pursuant to Section 301(a)(9) of the Colorado River Basin Project Act, 43 U.S.C. § 1521(a)(9).
- 3. The Second and Fifth Claims for Relief in the Complaint and the Second Claim for Relief in the Counterclaim shall be resolved as follows:
- (a) Notwithstanding the 1988 Contract (Articles 9.1, 9.2(e), 9.3(d) and 9.10), the repayment schedule set forth in Exhibit "A" hereto shall constitute CAWCD's repayment obligation and all prior billings shall be recalculated and adjusted to reflect the payments provided for in Exhibit "A." These recalculations and adjustments, through the December 2002 bill, are shown on Exhibit "A-1" which is incorporated by reference as if set forth in full. In this recalculation and adjustment, bills have been calculated without penalties being assessed against

SOMACH, SIMMONS & DUNN A Professional Corporation

28
SOMACH, SIMMONS &
DUNN
A Professional Corporation

CAWCD but with any over- or under-payments bearing interest at the Arizona State Treasury investment rates for relevant periods. Exhibit "A-1" also reflects appropriate recalculations and adjustments to account for the credits provided for in paragraph 6 of this Revised Stipulation. To the extent that Exhibit "A-1" reflects a net credit to CAWCD following the January 2003 payment, that credit shall be carried forward with interest at the Arizona State Treasury investment rate and shall be applied to future Exhibit "A" payments due to the United States from CAWCD as needed after application of all revenues and credits described in subparagraph 6(c).

- (b) Notwithstanding Article 9.3(d) of the 1988 Contract, 73% of the repayment obligation established in subparagraph 2(a) of this Revised Stipulation shall be interest bearing, and 27% shall be non-interest bearing. This agreed-upon interest bearing split is reflected in the payment schedule in Exhibit "A" and shall be in effect throughout the repayment period; Provided, however, that if litigation resumes as provided for in subparagraph 8(f) of this Revised Stipulation, CAWCD's repayment obligation will be deemed to be 73% interest bearing and 27% non-interest bearing for the period October 1, 1993 until litigation resumes or May 9, 2012, whichever occurs first, regardless of any interest-bearing split that is determined to be applicable for the remainder of the repayment period.
- 4. The Third and Fourth Claims for Relief in the Complaint and the Third and Fourth Claims for Relief in the Counterclaim shall be resolved as follows:
- (a) The provisions of this paragraph of this Revised Stipulation shall apply only to how CAWCD determines charges for delivery of Project Water under long-term contracts,¹ specifically: Fixed OM&R Costs and Charges and Pumping Energy Costs and Charges for providing Project Water service for any Indian Tribe or for any other Federal purpose. This paragraph shall not govern, in any way, how either Fixed OM&R Costs and Charges or Pumping Energy Costs and Charges are determined for any other purposes. If CAWCD uses an alternate method of calculating either Fixed OM&R Costs and Charges or

-5-

As used in this Revised Stipulation, a long-term contract or subcontract means one having a term that extends to 2043 or beyond and any contract or subcontract resulting from the transfer, assignment or lease of such contract or subcontract, or part thereof, or of a Project Water entitlement thereunder.

6

Pumping Energy Costs and Charges which results in a lesser cost or charge (exclusive of any water service subcontract or water service capital charges) for Municipal and Industrial ("M&I") priority water or agricultural priority water under long-term subcontracts, then the lesser cost or charge will be billed instead of the costs or charges that would otherwise be billed under the provisions of this paragraph.

21

22

23

24

25

26

27

For the purposes of this Revised Stipulation, "Fixed OM&R Costs" shall (b) mean: all expenses incurred by CAWCD for the care, operation, maintenance, and replacement of "Transferred Works" as defined in Article 5.18 of the 1988 Contract and identified pursuant to Article 6(a) of Contract No. 7-07-30-W0167, dated August 5, 1987 ("O&M Transfer Contract") (sometimes referred to as "OM&R-related activities") and for the transmission of energy necessary to deliver Project Water that are not otherwise included in Pumping Energy Costs. All costs incurred by Reclamation and reimbursed by CAWCD pursuant to paragraph 8.2.1 of the Operating Agreement attached to the May 9, 2000 Stipulation as Exhibit "C" thereto and hereby fully incorporated herein by reference may be included in Fixed OM&R Costs as may the costs in excess of the funds provided in subparagraph 6(e)(ii) of establishing a reserve to cover the costs associated with major repair or replacement of CAP features. CAWCD shall use its business judgment to allocate joint costs that support both OM&R-related activities and other activities and may include in Fixed OM&R Costs only the portion of joint costs allocable to OM&R-related activities. "Fixed OM&R Charge" shall mean the charge per acre-foot of Project Water imposed by CAWCD each year for the recovery of the Fixed OM&R Costs of water deliveries.

- (c) "Pumping Energy Costs" shall mean all of CAWCD's costs for the generation or acquisition of energy necessary to deliver Project Water each year. "Pumping Energy Charge" shall mean the charge per acre-foot of Project Water imposed by CAWCD each year for the recovery of the Pumping Energy Costs of water deliveries.
- (d) Pursuant to subparagraph 4(a) above, CAWCD shall annually in advance of Project Water deliveries determine the Fixed OM&R Charge and Pumping Energy Charge for Project Water service for the following year.

- (i) CAWCD's Fixed OM&R Charge shall not be more than the amount determined by dividing CAWCD's estimated Fixed OM&R Costs for the following year by the total amount of Project Water that CAWCD estimates will actually be delivered through Project Works in the following year.
- (ii) CAWCD's Pumping Energy Charge shall not be more than the amount determined by dividing CAWCD's estimated Pumping Energy Costs for the following year by the total amount of Project Water that CAWCD estimates will actually be delivered through Project Works in the following year.
- (iii) Without regard to any prior year's adjustment as may be provided in subparagraphs 4(e) and (f) below, charges for any delivery of Project Water for Federal purposes shall be no more than the sum of the Fixed OM&R Charge and the Pumping Energy Charge as defined in subparagraphs 4 (b) and (c) herein.
- (e) All past fixed OM&R and pumping energy charges paid by the United States on behalf of the Ak-Chin Indian Community, for Roosevelt Dam construction, and for San Carlos Apache Tribe/Phelps Dodge exchange water shall be fairly reconciled with actual past fixed OM&R and pumping energy costs and shall not include the costs in paragraph 14 below nor shall it include the costs of establishing a reserve to cover the costs associated with the major repair or replacement of CAP features referred to in subparagraph 4(b) above, with overpayments bearing interest at the Arizona State Treasury investment rate for the relevant periods, being credited against future charges for deliveries for Federal purposes beginning with amounts due in the year 2001 or refunded at United States option. The accounting methodology used in performing the foregoing reconciliation will be consistent with the methodology used in the applicable years to assess the charge. CAWCD will provide the United States an accounting of the adjustment. Any disputes over the reconciliation dealt with in this subparagraph shall be dealt with pursuant to the ADR procedures set forth in paragraph 11 herein.
- (f) The United States shall, in advance of Project Water deliveries, pay, to the extent Congress provides appropriations or other monies therefor, or provide for payment of all Fixed OM&R Charges and Pumping Energy Charges associated with the delivery of Project

28 SOMACH, SIMMONS

Water, whether directly or by exchange, for use by any Indian tribe or its lessees or for any other Federal purpose. CAWCD shall bill the United States for such Charges monthly, based upon CAWCD's annual estimates of these Charges and annual water delivery schedules. The United States shall pay or provide for payment within 30 days of billing. The payment of such Charges directly to CAWCD by lessees or other entities shall discharge, to the extent of the payments made, the obligation of the United States. Within 30 days of the completion of audited financial statements each year, but in no case later than May 30, CAWCD shall adjust Fixed OM&R Charges and Pumping Energy Charges to reflect actual Fixed OM&R Costs and Pumping Energy Costs, with overpayments refunded to or underpayments paid by the United States within 30 days of the recalculation. CAWCD will provide the United States an accounting of the adjustment. The first adjustment shall be in 2001 for charges assessed in the year 2000.

- (g) The United States annually shall have the right, upon 90 days advance written notice, to audit CAWCD's administration of Fixed OM&R and Pumping Energy Costs and Charges. In the case of a dispute over the type of charge or the amount that is billed, the United States shall pay or provide for payment of the full amount billed, but shall do so under protest and CAWCD and the United States shall follow the ADR procedures set forth in paragraph 11 herein.
- (h) In those situations in which a lessee of Project Water under contract to an Indian tribe has an obligation to pay Fixed OM&R Charges or Pumping Energy Charges associated with the delivery of Project Water, whether directly or by exchange, nothing herein shall relieve such lessee from the obligation to pay such charges. The United States shall direct such lessee to pay all such charges directly to CAWCD. Nothing herein shall waive any right of the United States to repayment of Fixed OM&R Charges or Pumping Energy Charges from any Indian tribe where an obligation exists for such tribe to pay its own Fixed OM&R Charges or Pumping Energy Charges. Nothing herein is intended to create an obligation on the part of the United States to pay for a lessee where that obligation does not otherwise exist.
- 5. The Fifth and Sixth Claims for Relief in the Counterclaim shall be resolved as follows:

SOMACH, SIMMONS & DUNN A Professional Corporation

-	(a) Purposes of this Revised Stipulation, "Project Water" shall mean:
2	(1) all Colorado River water to which Arizona is entitled under the U.S.
3	Supreme Court decree in Arizona v. California that the CAP Water Supply System is capable of
4	delivering:
5	(i) after first providing for satisfaction of those rights described
6.	in Article 8.7(b)(i) and (ii) of the 1988 Contract, and
7	(ii) subject to the provisions of Article 8.7(c) of the 1988
8	Contract;
9	(2) water available from Central Arizona Project dams and reservoirs;
10	(3) return flows captured by the Secretary for Project use;
11	(4) water delivered to water users in Arizona, through the Project Works,
12	in exchange for water delivered to users in New Mexico from or by means of the Project Works;
13	(5) Colorado River water acquired from the Yuma Mesa Division of the
14	Gila Project pursuant to the Ak-Chin Water Rights Settlement Act of 1978 (Public Law 95-328),
15	as amended on October 19, 1984 (Public Law 98-530);
16	(6) Colorado River water acquired from the Wellton-Mohawk Irrigation
17	District pursuant to the Salt River Pima-Maricopa Indian Community Water Rights Settlement
18	Act of 1988 (Public Law 100-512); and
19	(7) any additional water not included in (i) or (ii) above that is required
20	to be delivered by the Secretary through Project Works pursuant to the Southern Arizona Water
21	Rights Settlement Act of 1982 (Title III of Public Law 97-293) or pursuant to any subsequent act
22	of Congress.
23	(b) For purposes of this Revised Stipulation, the water supply associated with
24	modification of Roosevelt Dam shall not be counted as Project Water.
25	(c) CAWCD shall be entitled to divert all Project Water for the benefit of
26	Project Water users.
27	(d) Excess Water shall be dealt with as follows:
28

- (1) "Excess Water" is all Project Water that is in excess of the amounts used, resold, or exchanged pursuant to long-term contracts and subcontracts for Project Water service.
- (2) CAWCD shall have the exclusive right in its discretion to sell or use all Excess Water for any authorized purpose of the CAP.
- (3) Excess Water shall be delivered through Project Works for use on Indian lands or non-Indian lands directly or by exchange as permitted by law.
- may be made pursuant to multi-year programs established by CAWCD. Such contracts shall not exceed a term of one year, but may contain a provision for automatic renewal without further action by the parties thereto. Such automatic renewal shall not give rise to a right in any subsequent year to receive Excess Water, nor preclude future long-term contracts or subcontracts nor limit the terms thereof, including in implementation of Indian water right settlements up to a total for all long-term contracts and subcontracts of 1.415 million acre-feet. By its terms, Subarticle 8.8(b) of the 1988 Contract does not apply to contracts for Excess Water service under this paragraph; however, such contracts entered into after the filing of this Revised Stipulation shall comply substantially with the provisions of Subarticles 8.8(b)(i), 8.8(b)(ii), 8.8(b)(iii), 8.8(b)(iii), 8.8(b)(iii) and 8.8(b)(x). Pursuant to 43 U.S.C. § 1524(b)(1), all contracts that conform to the provisions of this paragraph shall be deemed approved by the Secretary. The Secretary must be a party to or must expressly approve all contracts for Project Water service other than those which conform to the provisions of this paragraph.
- (5) CAWCD may, at its discretion, establish programs for the sale of Excess Water under this paragraph that provide for various categories and charges for Excess Water. Through 2030, in any year in which Excess Water is offered for sale under this paragraph, any Indian contractor of Project Water service or the United States shall have the right to purchase Excess Water from any Excess Water category not established exclusively for the use of non-Indian agriculture or the Arizona Water Banking Authority, at the same charge and upon the same terms and conditions as for other users in that category. Any water available

within an exclusive category that is not fully used by eligible participants in that category shall be
made available to other Excess Water categories. After 2030, in any year in which Excess Water
is offered for sale under this paragraph, any Indian contractor of Project Water service or the
United States shall have the right to purchase Excess Water from any Excess Water category at
the same charge and upon the same terms and conditions as for other users in that category.

- (6) Nothing in this paragraph shall preclude the United States or any Indian tribe from entering into a contract with the Arizona Water Banking Authority.
- (7) Excess Water purchased under this paragraph may not be resold or transferred, except that a purchaser may enter into an arrangement with a groundwater savings facility allowed under state law to store Excess Water.
- (8) This paragraph does not constitute or require approval by the Secretary of any particular Excess Water program.
- 6. The Fifth Claim for Relief in the Complaint is further dealt with and the Seventh, Eighth, Ninth, Tenth, Eleventh, and Twelfth Claims for Relief in the Counterclaim are resolved as follows:
- (a) The Lower Colorado River Basin Development Fund ("LBDF"), established pursuant to Section 403 of the Colorado River Basin Project Act, 43 U.S.C. § 1543, shall be administered, and past accountings adjusted as follows:
- (i) Exhibit "A-1" reflects a credit of \$156,422,615 for all past payments made by CAWCD pursuant to annual billings issued by the United States since 1993.
- (ii) Exhibit "A-1" reflects a credit in the amount of \$31,703,022 for CAWCD's advance of funds for the United States' purchase of the Harquahala Valley Irrigation District's CAP allocation for use in Indian water rights settlements.
- (iii) Exhibit "A-1" reflects credits totaling \$43,153,976 for expenditures made through December 31, 2002 by CAWCD to correct CAP construction deficiencies.
- (iv) Exhibit "A-1" reflects a credit in the amount of \$2,969,251 for the value of CAWCD's unreimbursed employee-related costs accrued prior to 1994.

- (v) Exhibit "A-1" reflects a credit in the amount of \$196,969,053 for revenues credited to or deposited in the LBDF from the sale of Navajo Surplus Power through December 31, 2002.
- (vi) Exhibit "A-1" reflects credits totaling \$48,055,446 for revenues credited to or deposited in the LBDF associated with the Hoover 4.5-mill surcharge through December 31, 2002.
- (vii) Exhibit "A-1" reflects credits totaling \$1,584,614 for net miscellaneous revenues credited to or deposited in the LBDF through December 31, 2002.
- (viii) Exhibit "A-1" reflects offsets totaling \$1,238,600 for Reclamation oversight costs except for those described in paragraph 14 below.
- (b) The amounts set forth in subparagraph 6(a) above shall remain subject to verification and audit for a period of one year from the date of this Revised Stipulation, and CAWCD and the United States shall work diligently with each other to complete this verification within this period of time. In the event of a dispute associated with these verifications and audits, the parties shall follow the ADR procedures set forth in paragraph 11.
 - (c) The LBDF shall be further administered as follows:
- (i) All power revenues, net of generation and associated administrative costs, including all revenues from Navajo Surplus Power sales (other than those pledged to the payment of bonds issued by CAWCD and except as provided in subparagraph 6(e)(ii) hereof), the Hoover 4.5-mill surcharge,² and, after June 1, 2005, the Parker Davis 4.5-mill surcharge, shall be placed in the LBDF and credited, in the relevant years, against future Exhibit "A" payments due to the United States from CAWCD prior to their utilization for any other purpose.
- (ii) All miscellaneous CAP revenues shall be credited, in relevant years, against future Exhibit "A" payments due to the United States from CAWCD, including, but not limited to, all revenues from the use, rental, sale, exchange or inter-agency or inter-governmental transfer of CAP lands or other property. In the case of exchanges or inter-agency or inter-

This subparagraph does not apply to the 2.5-mill surcharge to purchasers in California and Nevada.

governmental transfers of real property, credits for transactions which take place after May 9, 2000 shall equal the greater of cost or the fair market value of such land or property at the time of the exchange. Fair market value will be determined by independent appraisal funded out of proceeds of the sale or, if no sale takes place, funded as reimbursable oversight costs. Where reimbursable costs are not associated with the acquisition of property, then the provisions of this subparagraph shall not apply to the disposal of that property but, rather, the statutory provisions associated with the acquisition and disposal of that property shall govern how the value of that property shall be accounted for.

(iii) A credit against Exhibit "A" payments due to the United States from CAWCD shall be made annually based upon the agreed-upon costs associated with the agreed work undertaken by CAWCD, pursuant to Exhibit "B," to further correct CAP construction deficiencies. Any recoveries on claims made by the United States against CAP siphon construction related contractors shall be divided 35% to CAWCD and 65% to the United States. CAWCD's share of such recoveries, if any, shall be applied as a credit against the Exhibit "A" payments due to the United States from CAWCD. The United States share of such recoveries, if any, shall not be available for credit against Exhibit "A" payments due to the United States from CAWCD. Notwithstanding the foregoing, all decisions regarding claims including litigation and settlement against CAP siphon construction contractors shall be within the sole discretion of the United States and shall not be subject to challenge by CAWCD. However, the United States shall consult with CAWCD regarding proposed settlement of such claims.

(iv) The United States shall apply all revenues described in paragraphs 6(c)(i) and 6(c)(ii) against the current Exhibit "A" payment due to the United States from CAWCD before applying any of the credits described in paragraph 6(c)(iii). To the extent that any of the credits described in paragraph 6(c)(iii) are not needed to satisfy the current year's Exhibit "A" payment due to the United States from CAWCD, those excess credits shall be carried forward for application against future Exhibit "A" payments due to the United States from CAWCD until exhausted, with such excess credits bearing interest at the Arizona State Treasury investment rate.

(d) Costs associated with the miscellaneous revenues addressed in subparagraph 6(c)(ii) shall be billed as part of the work plan referred to in Exhibit "C." In the event of a dispute with respect to the billing provided for herein, CAWCD and the United States shall follow the ADR procedures set forth in paragraph 11.

- (e) (i) Nothing in this Revised Stipulation shall affect the establishment, collection, payment and application of the Additional Rate Component charged for Navajo Surplus Power and used for the payment of bonds issued by CAWCD before January 1, 2003 (hereinafter "Outstanding Bonds"). CAWCD and the United States acknowledge that the amounts collected from such Additional Rate Component are properly held by the Trustee designated by CAWCD and properly used to pay debt service, costs, and rebate obligations associated with such Outstanding Bonds and to fund reserves therefor.
- (ii) Except as expressly provided in this subparagraph (ii), nothing in this Revised Stipulation shall affect the establishment, collection, payment and application of the Capacity Charge (including the Additional Rate Component) charged for Navajo Surplus Power (the "Capacity Charge") as provided in the following documents: (1) Reclamation Agreement No. O-CS-30-P1076, as amended by the First Amendment thereto (as amended, the "Interagency Agreement"); (2) Contracts Nos. 89-BCA-10287 and 91-PAO-10404 for Long Term Sale of Navajo Surplus Power (collectively, the "Power Sales Contracts"); and (3) the Bond Indenture dated as of May 1, 1990, by and between CAWCD and Citibank (Arizona) as trustee (together with its successors, the "Bond Trustee"), as amended by the First Supplement to Bond Indenture dated as of March 1, 1993, by and between CAWCD and the Bond Trustee and by the Second Supplement to Bond Indenture dated as of September 1, 2001, by and between CAWCD and the Bond Trustee; and the Bond Indenture dated as of August 1, 1991, by and between CAWCD and the Bond Trustee, as supplemented by the First Supplement to Bond Indenture dated as of February 1, 1994, by and between CAWCD and the Bond Trustee and by the Second Supplement to Bond Indenture dated as of September 1, 2001, by and between CAWCD and the Bond Trustee (collectively, the "Bond Indentures"). This Revised Stipulation does not impose on the United States and the United States does not hereby assume any obligations under the

Bond Indentures. Notwithstanding the provisions of the Bond Indentures and the Interagency Agreement, all revenues from the Capacity Charge and all monies held by the Bond Trustee under the Bond Indentures, to the extent such revenues and monies are not necessary to pay debt service, costs, or rebate obligations associated with Outstanding Bonds or to fund reserves therefor, may be paid, at CAWCD's option and in lieu of payment to Reclamation for deposit in the LBDF, to CAWCD to be used by CAWCD solely to establish a reserve to cover the costs associated with major repair or replacement of CAP features. To accomplish this result, the Bond Trustee may be directed by CAWCD to pay such amounts directly to CAWCD from time to time and, whenever it is no longer necessary to have the Capacity Charge paid to the Bond Trustee under the Bond Indentures, CAWCD may designate itself or any institutional trustee acting on CAWCD's behalf, as trustee to receive the Capacity Charge. In consideration for this, CAWCD shall pay the United States \$12,000,000 on or before December 31, 2011, which payment shall be applied as a prepayment of the last \$12,000,000 due of the non-interest bearing portion of CAWCD's Exhibit "A" Repayment Obligation. The foregoing applies only to revenues from the sale of Navajo Surplus Power prior to October 1, 2011.

- CAWCD shall annually have the right, upon 90 days advance written notice, (f) to audit the United States administration of the LBDF. To the extent that a dispute arises over how the United States administers the LBDF, and no mutually agreeable resolution can be achieved, CAWCD and the United States shall follow the ADR procedures set forth in paragraph 11 herein.
- (g) (i) CAWCD will pay administration, oversight and OM&R costs billed by the United States as provided in the Operating Agreement (Exhibit "C").
- (ii) CAWCD will not dispute the categories of costs specified in paragraph 8.3 of the Operating Agreement, but may dispute the amount of such costs billed by the United States. CAWCD may dispute any cost billed that is not within the category of costs specified in paragraph 8.3 of the Operating Agreement. If a bill is disputed, CAWCD shall, after noting its protest, nonetheless pay the disputed bill, and CAWCD and the United States shall follow the ADR procedures set forth in paragraph 11 below with respect to the disputed bill. If

CAWCD fails to pay the full amount billed, and the United States prevails, in whole or in part, in the ADR process or in litigation, CAWCD shall pay or lose credit in the applicable amount with interest and/or penalties provided for in Article 9.10 of the 1988 Contract. If CAWCD prevails, in whole or in part, in the ADR process or in litigation, the United States shall repay or credit CAWCD with the full amount awarded plus interest at the Arizona State Treasury investment rate for relevant periods.

- (h) Beginning January 1, 2000, net revenues in the LBDF that are available as a credit toward CAWCD's repayment obligation shall be accounted for and quantified by Reclamation on a monthly basis. Within 15 days after each month, Reclamation shall calculate an offsetting credit calculated at 1/24 of 3.342% (simple interest) on the revenues collected during that month plus 1/12 of 3.342% (simple interest) of the revenues collected during each previous month of the current calendar year (the "Additional Offsetting Credit"). Reclamation shall provide CAWCD a monthly report of LBDF revenues and credits calculated under this paragraph. Each year the accumulated balance of the Additional Offsetting Credit, if any, shall be applied against the annual payment due on the following January 15. For purposes of calculating the annual payment due on the following January 15, December's Additional Offsetting Credit shall be estimated and adjusted for actuals in the following year. The offsetting credits dealt with in this subparagraph 6(h) are for the purpose of offsetting interest, if any, that would otherwise be due from CAWCD. The offsetting credits shall have no effect on the principal payments that are otherwise due from CAWCD.
- (i) Article 10.3 of the 1988 Contract requires the establishment of certain reserve funds. Article 10.3(a) provides for the establishment of a \$4,000,000 emergency OM&R reserve fund. Article 10.3(b) provides for the establishment of a \$40,000,000 repayment reserve fund. Notwithstanding the limitations on the utilization of the reserve funds that may otherwise exist in the 1988 Contract, CAWCD may, at its reasonable discretion, utilize monies in either fund for the purpose of meeting the purposes identified in Article 10.3(a)(iv) of the 1988 Contract.
- 7. CAWCD and the United States have executed an Operating Agreement (Exhibit "C") setting forth the terms and conditions for performing OM&R-related activities.

8.		(a)	As a condition to the effectiveness of this Revised Stipulation, the following
shall hav	e bo	een add	lressed, in a manner satisfactory to the Secretary ³ and the Arizona Department
of Water	Re	source	s, including any necessary actions by Congress:

- (i) a final Gila River Indian Community water rights settlement fully enforceable in accordance with the enforceability date provisions of such settlement;
- (ii) an amendment to the Southern Arizona Water Rights Settlement Act of 1982 fully enforceable in accordance with the enforceability date provisions of such amendment;
- (iii) a final San Carlos Apache Tribe water rights settlement fully enforceable in accordance with the San Carlos Apache Tribe Water Rights Settlement Act of 1992, P.L. 102-575, 106 Stat. 4740, as amended in 1994, 1996 and 1997, and the enforceability date provisions of such settlement;
- (iv) the allocation of Project Water for use by Indian tribes in Arizona such that the total amount allocated for Federal purposes shall be 667,724 acre feet; and
- (v) 65,647 acre feet of M&I Project Water and approximately 96,295 acre feet of non-Indian agricultural Project Water shall be or shall have been allocated to or for the benefit of various Arizona M&I or non-Indian agricultural water providers.
- (b) As a condition to the effectiveness of this Revised Stipulation, any authorizations or appropriations necessary to fund construction work as set forth in Exhibit "B" to comply with the Gila River Biological Opinion and the Santa Cruz Biological Opinion have been obtained from Congress. Nothing in this Revised Stipulation is intended to prejudice the positions of CAWCD or the United States in any litigation associated with these biological opinions.

-17-

Any settlement referenced herein involving ongoing litigation shall also be subject to the Attorney General's authority under 28 U.S.C. § 519.

	(c)	As a condition to the effectiveness of this Revised Stipulation, the United
States sh	nall amend	the Navajo Power Marketing Plan of December 1, 1987 ("Plan") to provide
for the e	stablishme	nt and collection of rates for the sale or exchange of Navajo Surplus Power
after Sep	otember 30	, 2011, which optimize the availability and use of revenues for the purposes of
subparag	graphs 6(c)	and 8(d), in a manner consistent with the Hoover Power Plant Act of 1984
(Pub. L.	No. 98-38	1), and shall market and exchange Navajo Surplus Power after September 30,
2011, in	accordance	e with such amended Plan.

- (d) (i) As a condition to the effectiveness of this Revised Stipulation,

 Congress shall have provided in a manner satisfactory to the Secretary, the Attorney General and

 CAWCD a means by which:
- (1) A firm funding stream not to exceed the annual amount of LBDF revenues previously credited against CAWCD's annual Exhibit "A" repayment obligation is available for, in order of priority:
- (i) First, for Fixed OM&R Charges under long-term contracts payable by the United States pursuant to subparagraph 4(f) and subject to subparagraph 4(h);
- (ii) Second, for costs authorized by Congress to be paid to the Gila River Indian Community pursuant to the Gila River Indian Community water rights settlement;
- (iii) Third, in addition to funds made available through annual appropriations, for any of the following, without regard to any particular priority:
- 1) After enactment of the Gila River Indian Community Settlement Act, costs associated with the construction of distribution systems associated with the Gila River Indian Community's Master Contract with the United States for Repayment of Construction Costs and Operation, Maintenance and Replacement of A Water Distribution System (#6-07-30-W0345) dated July 20, 1998;
- 2) Costs associated with the construction of listribution systems required to implement the provisions of § 3707(a)(1) of the San Carlos

Apache Tribe Water	Rights Settlement	Act of 1992	(Pub. L. No.	102-575, 106	Stat. 4740 a
amended);					

3) Costs associated with construction of distribution systems required to implement the provisions of §§ 303(a)(1) and (2) of the Southern Arizona Water Rights Settlement Act of 1982 (Pub. L. No. 97-293, 96 Stat. 1279); and

4) Other costs authorized by Congress (including any costs to construct distribution systems but not including costs otherwise payable by non-Federal, non-Indian parties) pursuant to any Arizona Indian water rights settlement act enacted after the date of this Revised Stipulation. It is understood, however, that the actual terms of any such settlement will need to be negotiated by the current or a future Administration and subsequently enacted or amended by Congress on a case-by-case basis.

annual appropriations, for costs associated with the construction of on-reservation facilities enabling the following tribes to use the CAP water for which they have contracted: Yavapai Apache (Camp Verde), Tohono O'odham Nation (Chuichu), Pascua Yaqui, and Tonto Apache; *Provided*, that in the event of a water rights settlement act authorizing such construction in the case of any of the foregoing tribes, the provisions of subparagraph 8(d)(i)(1)(iii) above shall apply to such tribe or tribes; *Provided further* that, after 2030 and through 2046, any of the foregoing tribes not having facilities enabling them to use the CAP water for which they have contracted or a final water rights settlement act may elect, in lieu of any construction funding by the United States, annual cash payments equal to the average price of any Excess Water sold annually under paragraph 5 above multiplied by the total amount of such Excess Water sold or the unused CAP water contract entitlement of such tribe or tribes, whichever is less.

(2) Any annual revenues within the LBDF, except for revenues derived from the Capacity Charge described in subparagraph 6(e)(ii), that are in excess of what is needed to satisfy CAWCD's annual Exhibit "A" repayment obligation may be used to pay, in order of priority:

//

1	(i) Fixed OM&R Costs associated with delivery of CAP					
2	water in the current year to Indian tribes under long-term contracts;					
3	(ii) One year of "tail end" prepayment, starting with					
4	repayment of non-interest bearing debt, of CAWCD's Exhibit "A" repayment obligation;					
5	(iii) Repayment to the U.S. Treasury of Indian Fixed					
6	OM&R Costs previously paid using LBDF revenues that had already been credited against					
7,	CAWCD's Exhibit "A" repayment obligation;					
8	(iv) Repayment to the U.S. Treasury of costs associated					
9.	with any Indian water rights settlement previously paid using LBDF revenues that had already					
10	been credited against CAWCD's Exhibit "A" repayment obligation;					
11	(v) Payment of any annual installment on any CAP-					
12	related 9(d) debt (43 U.S.C. § 485(d)) assumed by the United States; and					
13	(vi) Payment to the U.S. Treasury of the difference					
14	between CAWCD's \$1,646,462,500 repayment obligation and the result of any CAP cost					
15	allocation undertaken by the United States for the Water Supply System and Regulatory Storage					
16	Stages of the CAP.					
17	(ii) Reclamation will provide CAWCD an annual accounting of its uses					
18	of LBDF revenues under this subparagraph 8(d).					
19	(iii) If for whatever reason a final judgment is not entered into in					
20	accordance with this Revised Stipulation then the provisions of this subparagraph shall have no					
21	effect and shall not govern the utilization of LBDF revenues. To satisfy this condition, any					
22	legislation enacted by Congress must provide that the authority to use LBDF revenues as					
23	described herein shall not be effective if a final judgment is not entered in accordance with this					
24	Revised Stipulation.					
25	(e) From the date of this Revised Stipulation until litigation resumes or the					
26	Expiration Date, whichever occurs first, CAWCD and the United States will operate and relevant					
27	payments and credits will be adjusted and made pursuant to this Stipulation. Neither CAWCD					
28 100ns &	nor the United States shall have waived any of the conditions set forth in this paragraph by any					
poration	REVISED STIPULATION RE STAY OF LITIGATION, RESOLUTION OF ISSUES DURING STAY, AND JUDGMENT— -20-					

action or inaction pursuant to this Revised Stipulation prior to all of the conditions having occurred. Until all of the conditions have occurred, any payment, credit or adjustment made or accepted pursuant to this Revised Stipulation shall be without prejudice to any claim or cause of action of CAWCD or the United States existing prior to the date of this Revised Stipulation. In the event that these conditions are not satisfied and litigation resumes pursuant to subparagraph 8(f) of this Revised Stipulation, then the following shall apply:

- (i) No penalties will be assessed against CAWCD for any underpayments that might be determined to relate to the period from October 1, 1993, until litigation resumes or the Expiration Date, whichever occurs first. The Arizona State Treasury investment rate shall apply to any over or underpayments during such period.
- (ii) CAWCD's repayment obligation will be deemed to be 73% interest-bearing and 27% non-interest bearing for the period from October 1, 1993, until litigation resumes or the Expiration Date, whichever occurs first, regardless of any interest-bearing split that is determined to be applicable for the remainder of the repayment period.
- (iii) Any over- or underpayment that is determined to exist for the period from October 1, 1993, until litigation resumes or the Expiration Date, whichever occurs first, including interest on the over- or underpayment, shall be capitalized and amortized over the remainder of the repayment period, as shown in Exhibit "D" hereto, which is incorporated by reference as if set forth in full.
- (f) As noted above, the provisions of this paragraph are a condition to the effectiveness of this Revised Stipulation. They are, however, not intended to, in any way, control the actions of the Secretary or any other Party. The Court shall maintain jurisdiction over the administration of this Revised Stipulation until such time as these conditions are met. Upon the occurrence of all conditions within this Revised Stipulation, the Parties shall notify the Court and move for entry of a final judgment consistent with this Revised Stipulation. This Revised Stipulation shall be effective on the entry of such final judgment ("Effective Date"). If all conditions within the Revised Stipulation are not met prior to May 9, 2012 ("Expiration Date"), this Revised Stipulation shall terminate automatically, and except for subparagraphs 6(e) and 8(e)

above, no party shall be bound by any of its terms. If, at any time it appears that all conditions within this Revised Stipulation cannot be met before the Expiration Date, the Parties shall meet and confer about amending this Revised Stipulation. However, absent agreement on an amendment to this Revised Stipulation, either CAWCD or the United States may petition the Court to terminate the Revised Stipulation prior to the Expiration Date, and, upon the granting of that petition, the litigation shall resume. Matters resolved through decision of this Court at the time this Revised Stipulation is filed shall be considered "law of the case" and shall not be relitigated. All appeal rights are reserved, including the United States appeal in Central Arizona Water Conservation District v. United States, No. 99-15124 (9th Cir.).

- (g) As noted in subparagraph 2(a) and elsewhere herein, the Exhibit "A" repayment obligation is predicated upon the premise that a total of 667,724 acre feet of Project Water has been allocated for Federal purposes. In the event there is a change in the amount of Project Water allocated for Federal purposes from that assumed herein, CAWCD and the United States will meet and confer with respect to any appropriate adjustment to Exhibit "A." In the event that there is a dispute between the parties or over the amount of any such adjustment, then CAWCD and the United States will follow the ADR procedures set forth in paragraph 11 below.
- 9. Upon the Effective Date, all claims for relief raised by Intervenors in this case are deemed to be fully resolved in accordance with the provisions of this Revised Stipulation. Subject to paragraph 8 of this Revised Stipulation, the United States withdraws its objections filed in the bankruptcy action involving Intervenor Central Arizona Irrigation and Drainage District.
- 10. Upon the Effective Date, all matters within the Complaint and Counterclaim (a) not specifically mentioned herein are dismissed with prejudice, and the final judgment entered pursuant to subparagraph 8(f) is binding upon all Parties.
- (b) Upon the Effective Date, for and in consideration of CAWCD performing its obligations under this Revised Stipulation, the fact and sufficiency of which are hereby acknowledged, the United States releases and forever discharges CAWCD, its present and former officers, directors, employees, agents, attorneys, advisors, representatives, and their respective successors and assigns from any and all claims, demands, rights, and causes of action of

SOMACH, SIMMONS & DUNN A Professional Corporation whatsoever kind and nature, whether known or unknown, which the Department of the Interior may have against CAWCD on account of the claims for relief in the Complaint and Counterclaim. This release does not apply to claims arising under criminal or tax law, claims sounding in fraud, or the claims of any United States Government agency other than the Department of the Interior.

- (c) Upon the Effective Date, for and in consideration of the United States performing its obligations under this Revised Stipulation, the fact and sufficiency of which are hereby acknowledged, CAWCD releases and forever discharges the United States and all Federal Defendants, their present and former officers, employees, agents, attorneys, advisors, representatives, and their respective successors and assigns from any and all claims, demands, rights, and causes of action of whatsoever kind and nature, whether known or unknown, which CAWCD may have against the United States and all Federal Defendants on account of the claims for relief in the Complaint and Counterclaim.
- (d) Upon the Effective Date, in accordance with 28 U.S.C. § 2672, this Revised Stipulation is final and conclusive upon CAWCD and constitutes a complete release of any claim by CAWCD against the United States and any employee of the United States whose act or omission gave rise to CAWCD's Federal Tort Claims Act claim, dated January 24, 1992, by reason of the same subject matter. It is further agreed that, as of the Effective Date, this Revised Stipulation constitutes a complete and final settlement of all claims for relief asserted by CAWCD in *Central Arizona Water Conservation District v. United States*, Case Number 92-51C, in the United States Court of Federal Claims.
- (e) CAWCD agrees to reimburse, indemnify and hold harmless the United States, its agents, servants, and employees from and against any and all causes of action, claims, liens, rights, or subrogated or contribution interests incident to or resulting from any act, omission, neglect, or misconduct of CAWCD or its employees in the manner or method of performing any construction, care, operation, maintenance, supervision, examination, inspection, or other duties of CAWCD in order to undertake activities set forth in Exhibit "B."
- (f) Notwithstanding subparagraphs 10(b), (c) and (d) above, and except as provided in subparagraph 10(e) above, the releases contained in this Revised Stipulation shall not

apply to third party claims that have been made or that may be made in the future against CAWCD or the United States alleging personal injury, death or property damage caused by the design, construction or operation of the CAP. CAWCD and the United States reserve all rights and defenses with regard to such third party claims. It is further agreed that the releases contained in this Revised Stipulation do not modify or affect the provisions of Article 6(f) of the O&M Transfer Contract or section 8 of Exhibit A to the O&M Transfer Contract.

- (g) This Revised Stipulation is not intended to be, and should not be construed as, an admission of liability or fault on the part of CAWCD or the United States, their agents, servants, officers, directors, or employees, and they specifically deny that they are liable to one another except as provided herein. This Revised Stipulation is entered into by all Parties for the purpose of compromising disputed claims and avoiding the expenses and risks of further litigation.
- (h) The persons signing this Revised Stipulation warrant and represent that they possess full authority to bind the Parties on whose behalf they are signing to the terms of the settlement.
- 11. The following non-binding ADR process shall be followed for any dispute arising under subparagraphs 4(e), 4(g), 6(b), 6(f), 6(g) and 8(g) of this Revised Stipulation:
- (a) CAWCD and the United States shall meet and confer about the issue or issues in an attempt to resolve the dispute. If there are issues that cannot be resolved by CAWCD and the United States, each shall appoint one arbitrator to a panel of arbitrators which will decide the dispute. The appointment of the two arbitrators will occur within 30 days of the meeting referred to above.
- (b) Arbitrators appointed to the arbitration panel shall be skilled and experienced in the field or fields pertaining to the dispute. The two selected arbitrators shall meet within 30 days of their appointment, and at their first meeting they shall appoint a third neutral arbitrator to complete the arbitration panel. The third arbitrator shall act as chairperson of the arbitration panel and shall direct the arbitration proceedings.

- (c) The arbitration process shall be limited to the issue or issues submitted by CAWCD or the United States. The arbitration panel shall not rewrite, amend, or modify this Revised Stipulation, the 1988 Contract, the Operating Agreement, or any other agreement or contract between the Parties.
- (d) There shall be no discovery beyond the information and documents made available during the informal meet and confer process provided for in subparagraph 11(a) and the general exchange or availability of records provided for within the 1988 Contract.
- either CAWCD or the United States in writing, at the same meeting that the neutral arbitrator is appointed. Assuming that no hearing has been requested, the arbitration panel will meet as deemed necessary by the panel and shall, in a manner it deems appropriate, receive evidence, receive argument or written briefs from CAWCD and the United States, and otherwise gather whatever information is deemed helpful by the panel. The arbitration process to be followed shall be informal in nature, and CAWCD and the United States shall not be entitled to trial-type proceedings under, for example, formal rules of evidence.
- (f) In the event that either CAWCD or the United States requests a hearing, the arbitration panel shall meet to receive evidence, receive argument and written briefs from CAWCD and the United States as follows:
- (i) The arbitration panel shall, within 5 days of the appointment of the neutral arbitrator, schedule a date for a hearing which shall be held within 20 days of the appointment of the neutral arbitrator.
- (ii) Within 10 days of the appointment of the neutral arbitrator,

 CAWCD and the United States shall each submit a brief of no longer than 15 pages setting forth
 its case. The brief shall include discussion of all issues relevant to the party's case. Each party
 shall, as an attachment to its brief, include declarations of not more than two experts and any
 relevant factual witness. Declarations of expert witnesses must include all opinions to be elicited
 upon direct testimony and a complete explanation of the basis of these opinions. Disputes with
 respect to the sufficiency of declarations or the appropriateness of the testimony shall be resolved

by the arbitration panel who may allow the testimony or exclude it. All expert witnesses must be available for cross-examination at the time of the arbitration hearing. Factual witnesses for which a declaration is prepared shall be made available for cross-examination at the time of the arbitration hearing only if requested by the other party.

- (iii) Each party shall have the opportunity, within 5 days of the close of hearing, to submit a closing brief not to exceed 10 pages. The closing brief shall be argument with no additional factual evidence to be submitted.
- (iv) There shall be no testifying witness on direct except for expert witnesses, if any.
- (v) Each party shall have a maximum of four hours to present its case in total. This time shall include opening and closing statements, direct presentation and any cross-examination of the other party's witnesses. Each party shall have the right to reserve part of its time to present up to one hour of rebuttal testimony.
- (vi) The matter shall be deemed submitted at the submission of closing briefs.
- (g) The panel of arbitrators shall render its final decision in the dispute within 60 days after the date of naming the third arbitrator. If the arbitrators disagree as to the determination, any two of the three arbitrators may join to form a majority and the decision of those two arbitrators will be final for the panel. The panel will issue a written decision for CAWCD and the United States.
- (h) If either CAWCD or the United States declines to accept the decision of the arbitration panel, it may initiate an action in the appropriate Federal court within 60 days of the issuance of the panel's written decision to obtain a judicial determination of the underlying dispute. If an action is not filed within 60 days of the panel's decision, the decision of the panel shall be deemed to be final and not subject to judicial review. The decision of the panel and record of the arbitration shall not be privileged and may be submitted as part of the record by either side in support of its case.

SOMACH, SIMMONS & DUNN A Professional Corporation (i) All costs incurred by the arbitration panel shall be shared equally by CAWCD and the United States, and the expenses of the arbitration panel shall be paid expeditiously. These costs shall not be included as Fixed OM&R Costs, nor are they to be made reimbursable or a cost billable to CAWCD.

- (j) During the period of time in which a disagreement is being addressed in the ADR process or appropriate judicial proceeding, CAWCD and the United States agree that no default or breach of any agreement being addressed in the process will have occurred and that there will be no basis for the termination of water deliveries or other similar punitive actions by either party. The foregoing does not waive any claims for monetary penalties under Article 9.10(a) of the 1988 Contract.
- 12. Except as provided for herein, the 1988 Contract remains in full force and effect, including but not limited to the provisions of Articles 9.6(e) and 9.9. Article 10.9 of the 1988 Contract shall govern all obligations of the United States under this Revised Stipulation. Except as otherwise provided for herein, terms defined within the 1988 Contract that are used in this Revised Stipulation have been capitalized and shall have the meaning ascribed to them in the 1988 Contract. Notwithstanding the foregoing, to the extent that the 1988 Contract is inconsistent with the provisions of this Revised Stipulation, the provisions of this Revised Stipulation shall govern. Nothing in this Revised Stipulation is intended to affect the rights of long-term contractors and subcontractors of Project Water service or any Colorado River water right holders. Nothing in this Revised Stipulation is intended to preclude CAWCD and the United States from entering into additional agreements or amendments to existing agreements regarding the subjects addressed in this Revised Stipulation. This Revised Stipulation and all actions authorized hereunder are subject to Federal law, including but not limited to the Reclamation Reform Act of 1982 and any exceptions thereto, State of Arizona law, and such rules and regulations as the Secretary may deem appropriate, as those laws and rules and regulations may be amended, and, except as provided herein, the 1988 Contract. Nothing in this Revised Stipulation may be used in any way to control the CAP water allocation process or affect its interpretation.

1 13. The Parties shall cooperate in carrying out the provisions and intent of this Revised 2 Stipulation. 3 14. Each Party shall pay for its own costs, including attorney fees and expert fees in this litigation. These costs shall not be included as Fixed OM&R Costs; nor are they to be made 4 5 reimbursable or made part of costs billable to CAWCD. 6 15. This Revised Stipulation may be executed by the Parties in counterparts. 7 16. As between CAWCD and the United States, this Revised Stipulation shall be 8 effective upon and the "date of this Revised Stipulation" for the purposes herein shall be the date 9 of entry of an Order of this Court approving the Revised Stipulation in accordance with the Joint 10 Motion of CAWCD and the United States for Stay and Approval of Revised Stipulation to which this Revised Stipulation is appended. Upon the entry of an Order of this Court approving the 11 12 Revised Stipulation, the Revised Stipulation shall replace and supersede the May 9, 2000 13 Stipulation in its entirety. 14 SNELL & WILMER 15 One Arizona Center 400 East Van Buren 16 Phoenix, AZ 85004-0001 17 SOMACH, SIMMONS & DUNN A Professional Corporation 18 Hall of Justice Building 813 Sixth Street, Third Floor 19 Sacramento, CA 95814-2403 20 21 Dated: April 8, 2003 Robert B. Installation of Scrubbers at Navajo Generating Station

Recreation Development

Grant with City of Phoenix
Hayden-Rhodes Canal Trails – Federal/Nonfederal
Tucson Recreation – Federal/Nonfederal
Tucson Canal Trails – Federal/Nonfederal

Exhibit D

Procedure to Follow After the Stipulation Expires ("Expiration Date")

- Step 1: Prepare a New Repayment Schedule based on the repayment obligation in effect after the Expiration Date.
 - A. Calculate the principal payment due for each year of the repayment period in accordance with the schedule in Article 9.3(f) of the 1988 Contract.
 - B. Calculate the interest due for each year of the repayment period in accordance with Article 9.4(b)(ii) of the 1988 Contract.
 - a. In determining the interest due each year from October 1993 through the Expiration Date, 73 percent of the repayment obligation will be deemed to be interest bearing.
 - b. In determining the interest due each year after the Expiration Date, the interest bearing percentage shall be determined as provided in the 1988 Contract.
- Step 2: Compare the payments due each year under the New Repayment Schedule to the payments credited against the repayment schedule in Exhibit A for each year prior to the Expiration Date.
- Step 3: Calculate interest on the amount of over- or underpayment at the Arizona state treasury rate from the date of the over or under payment until the Expiration Date.
- Step 4: The cumulative amount of the over- or underpayment including interest (the "Repayment Principal Adjustment") will be capitalized at the Expiration Date and amortized over the remainder of the repayment period in accordance with the schedule set forth in Article 9.3(f) of the 1988 Contract, as described below:
 - A. First, the Repayment Principal Adjustment will be divided between Stage 1 (water supply system) and Stage 2 (regulatory storage) and between interest bearing and non-interest bearing components in the same proportions as the repayment obligation is divided in the New Repayment Schedule.
 - B. Second, a Repayment Principal Adjustment Multiplier will be calculated to apportion the Repayment Principal Adjustment over the remainder of the repayment period. The Repayment Principal

Adjustment Multiplier is calculated by dividing 100 by the percentage of the repayment obligation remaining to be paid at the Expiration Date.

- For example, if the Expiration Date occurred in 2012, the next repayment installment due in January 2013 would represent repayment year 20 for Stage 1 of the CAP. At that point—i.e., after 19 years of repayment—24.1 percent of the repayment obligation for Stage 1 will have been repaid and 75.9 percent will remain to be repaid under the schedule in Article 9.3(f). Thus, the Repayment Principal Adjustment Multiplier would be 100 divided by 75.9, or 1.32.
- C. Third, the portion of the Repayment Principal Adjustment to be repaid in each remaining year of the repayment period is determined by multiplying the applicable percentage in Article 9.3(f) of the 1988 Contract by the Repayment Principal Adjustment Multiplier.
 - For example, in 2013 (repayment year 20 for Stage 1), Article 9.3(f) provides that 1.6 percent of the repayment obligation for Stage 1 is to be repaid. Thus, 2.1 percent (1.6% x 1.32) of the Repayment Principal Adjustment allocated to Stage 1 will be added to the amount due in that year under the New Repayment Schedule.
